Price **7,18 zł** gross

Full product description

Edge gasket (edge profile/rim profile/profile/protective profile/rubber profile type u/rubber gasket/edge gasket/half-round gasket/ gasket type u) **B-307 semi-round type U for 7-7,5mm edge** is a multipurpose product, finding wide and universal use as a protective, sealing and securing element. The gasket will effectively protect edges/rims with a thickness of **7-7,5**. The inward bent walls of the profile allow a stronger and tighter seating of the gasket on the edges.

The gasket is made of durable **PVC** (polyvinyl chloride) material, thanks to which it is characterized by:

- good mechanical properties
- high chemical resistance
- maintaining its properties in the temperature range from **-40°C to +85°C**
- very good dielectric properties
- self-extinguishing properties

hardness: 55 +/-5 °ShA

material: PVC

The price listed is for 1mb of profile
